

Volume 27, June 2012

PHYSIOLOGY

In This Issue

From Pluripotency to Distinct Cardiomyocyte Subtypes

Cardiac Actions of Protein Kinase C Isoforms

Interventional and Intrinsic Airway Homeostasis and Repair

Hedgehog Signaling and Maintenance of Homeostasis in the Intestinal Epithelium

Orphan Nuclear Receptors and Regulation of Nutrient Metabolism

Striatal Mechanisms Underlying Movement, Reinforcement, and Punishment

Published by
The International Union of Physiological Sciences and
The American Physiological Society
