2008 RT NEWS 47 – May 8, 2009: FINAL EDITION
=====

RT PROGRAM NEWS

This is the final edition of the weekly RT News update for the 2008 Frontiers in Physiology program!

Mel will be ensuring that you receive the monthly Alumni RT listserv in the days ahead. You'll be the newest alumni joining over 400 teachers across the nation who have been involved with APS Education Programs since 1990. We encourage you to use the Alumni listserv, especially to maintain a community among yourselves and other educators who have progressed in their teaching and administrative careers in science education.

Use the Alumni listserv to share teaching resources, experiences, fellowships or other professional development programs. Use the Alumni listserv to communicate your thoughts on science education, strategies for teaching and learning, issues of diversity and equity, the use of technology and the Internet in the classroom...all different aspects related to the APS' Six Star Science! Or perhaps share the challenges you face with your students, parents, school, communities, state, or national policies on science education or education in general. What topics are pressing for you?

If you do post something onto the listserv, it would be helpful for the rest of the Alumni teachers if you write your full name, APS program and year ("2008 Frontiers RT"), school, grade level taught, city, and state.

One important reminder for whenever you change email or postal mailing addresses in the future: Please let us know by emailing your full contact information to Mel (mlimson@the-aps.org) and the APS Education Office (education@the-aps.org).

Cheers! -- Mel
