Position Announcement
Department of Nutrition, Food & Exercise Sciences
Assistant Professor – Exercise Physiology
Florida State University

**Position:** The Department of Nutrition, Food and Exercise Sciences in the College of Human Sciences at Florida State University received a special allocation of preeminence funds for hiring new faculty positions, including six in Exercise Physiology. The Department is recruiting physiologists at the rank of Assistant Professor to develop an extramurally funded research program that will strengthen and complement the Department’s ongoing research activity. The salary and startup package are competitive and commensurate with qualifications and experience.

**Required Qualifications:** Applicants must have an earned doctorate in physiology or related discipline and significant postdoctoral training. Applicants must demonstrate a strong publication record in peer-reviewed, scientific journals as well as evidence of extramural support for research activities.

**Responsibilities:** The successful applicant will be expected to: (1) develop/maintain a nationally and internationally recognized extramurally funded research program, and (2) contribute to the Department’s teaching and service efforts at the undergraduate and graduate levels in the candidate's area of expertise. Additionally, the applicant is expected to recruit and mentor graduate students.

**The Department, College and University:** Applicants are encouraged to explore the College of Human Sciences web site [www.chs.fsu.edu](http://www.chs.fsu.edu) for more information about the Department and College. The Department of Nutrition, Food and Exercise Sciences is the 4th largest department at Florida State University (FSU) with more than 1,500 undergraduates and more than 100 graduate students. The department offers undergraduate majors in Nutrition, Dietetics, Food, Exercise Science, and Athletic Training. The department also offers graduate degrees at the master's and doctoral level in Nutrition, Food Science and Exercise Physiology. Florida State University holds the Carnegie Research University designation as a very high research activity institution. It is located in Florida’s capital city of Tallahassee. Florida State University has been officially designated as a preeminent research university by the Florida Legislature as a result of having met a set of rigorous benchmarks. FSU is ranked #25 among public institutions in *Forbes* 2017 "Best Value Colleges."

The University serves a culturally-diverse student population of over 42,000. The history of Florida State University can be accessed online at [https://www.fsu.edu/about/history.html](http://www.fsu.edu/about/history.html).

**Application Procedure:** Apply online at [https://jobs.fsu.edu](http://https://jobs.fsu.edu) to Job ID 42380 and be prepared to upload (1) letter of application, (2) curriculum vitae, (3) statement of future research plan, and (4) names, phone numbers and e-mail addresses of at least three professional references. All applications will be held in confidence and references will not be contacted without the candidate’s permission. Review of completed applications will begin immediately and will continue until all positions are filled.
