ILLINOIS STATE UNIVERSITY  
SCHOOL OF BIOLOGICAL SCIENCES  
ASSISTANT PROFESSOR OF PHYSIOLOGY

The School of Biological Sciences at Illinois State University in Normal, IL invites applications for a nine-month, tenure-track position in PHYSIOLOGY at the level of Assistant Professor. Candidates will demonstrate the potential to develop an active research program that addresses cellular mechanisms related to normal physiological processes or disease states, including, but not limited to, signaling, metabolism, trafficking, or adaptation to stress and environmental conditions.

Successful candidates will be expected to establish a rigorous, nationally recognized, extramurally funded research program. The new faculty member will also contribute to teaching undergraduate courses in physiology or cell biology, and graduate courses in their area of expertise. A PhD in Physiology or related field and postdoctoral experience are required.

The School of Biological Sciences features state of the art microscopy, flow cytometry and other shared facilities. We provide a highly collaborative environment and envision that our new colleague will interface with our existing strengths in cellular and molecular biology, and systems physiology. The School is home to 26 faculty, approximately 70 graduate students (MS and PhD) and over 750 undergraduate majors. For more information on the School of Biological Sciences and ISU, please visit www.bio.illinoisstate.edu.

Please complete an online application for posting number 0711125 at www.jobs.ilstu.edu. Interested applicants should submit a single pdf (indicated as “other”) that includes cover letter, CV, two-page research statement, and names and e-mail addresses for three references. Review of applications will begin on October 19, 2018 and continue until the position is filled. Intended start date is August 16, 2019. If you have questions about the position, please contact Dr. Wolfgang Stein (wstein@ilstu.edu).

Illinois State University is an Equal Employment Opportunity Employer encouraging applications from individuals with disabilities, minorities, females, and veterans.
