University of South Alabama, College of Medicine  
Departments of Physiology and Cell Biology and Internal Medicine  
The Departments of Physiology and Cell Biology and Internal Medicine at the University of South Alabama College of Medicine are jointly seeking to fill one research-intensive tenure-track assistant professor position. Seventy five percent effort will be protected for research and 25% effort will be dedicated to clinical responsibilities in the Division of Pulmonary and Critical Care Medicine. The applicant’s research focus must align with existing faculty interests, which include cardiovascular, pulmonary, neural, and mitochondrial biology, biomedical imaging, mechanics and modeling. Successful candidates will contribute to the college’s graduate and medical education missions. We are seeking individuals who are highly engaged and work well with basic and clinical collaborators. Competitive applicants must have M.D. and Ph.D. degrees, postdoctoral experience, and a demonstrated aptitude in competing for extramural grant support. Review of applications will begin immediately. Interested candidates should apply at the following link https://www.governmentjobs.com/careers/usouthal/jobs/1856619/assistant-professor-physiology-and-cell-biology-and-internal-medicine?page=2&pagetype=transferJobs. Also, each applicant should email an application packet, including an introductory letter, complete curriculum vitae, summary of research and teaching interests (1-page limit), and contact information of three references to the Search Committee at pcbsearch@southalabama.edu.
