Assistant / Associate Professor, Physiology  
Touro University Nevada

The Department of Basic Sciences at Touro University Nevada is seeking applicants for a full-time faculty position in Physiology at the Assistant or Associate Professor level. Duties will include teaching Human Physiology to health professional students in the Doctor of Osteopathic Medicine and Physician Assistant programs, as well as students in the Masters of Health Sciences Program. In addition to teaching, candidates will be strongly encouraged to participate in research/scholarly activity, including application for extramural funding. Applicants must hold a PhD, DO/MD, or other equivalent degree in the biomedical sciences. Preference will be given to candidates with experience teaching in medical or other graduate level health sciences programs. Applicants must be able to provide proof of U.S. Citizenship or Permanent Resident status.

Touro University Nevada promotes basic biomedical research, as well as educational, epidemiological and clinical research activities for its faculty and students. There is a large state-of-the-art shared research lab which supports cell biology, tissue culture and molecular biology research work. Facilities for translational research are also available. Touro University Nevada has identified neuroscience research in aging populations with emphasis on rehabilitative medicine and developmental disorders including Autism Spectrum Disorders as its focus areas of research.

Touro University Nevada is located in one of the most rapidly growing cities in the United States, and is becoming recognized as an outstanding health science center serving the greater Las Vegas area. The campus consists of two colleges, the College of Osteopathic Medicine and the College of Health and Human Services. Touro University Nevada is a branch campus of Touro University California. Touro College and University System is the parent of Touro University Nevada. Touro College and University System was established in New York City by Bernard Lander, PhD, LHD, as a Jewish-sponsored independent institution of higher and professional education primarily to enrich the Jewish heritage, and serve the larger American community. Approximately 19,000 students are currently enrolled in its various schools and divisions.
