The Division of Reproductive Science Research in the Department of Obstetrics and Gynecology at the University of Iowa in Iowa City, IA is seeking a highly qualified applicant to join our faculty as an Associate. Applicants will support basic and translational biomedical research in maternal health and must have a demonstrated research commitment, ability, and accomplishment in immunology and perinatal biology. Laboratory experience in cellular immunotherapy, preeclampsia, and animal research is required. Applicants are required to have at least 50% external funding and a record of strong clinical or basic science skills, teaching skills and interpersonal skills. Applicants must be planning an academic career and be committed to participation in the research and educational activities of the research division and the Department of Obstetrics and Gynecology. Applicants are required to have a Ph.D. in Immunology and a minimum of five years postdoctoral training in Perinatal Biology.

For a complete list of required qualifications and to apply for this position visit our website at https://jobs.uiowa.edu/content/faculty/, requisition #73375.
