

Tenure Track Faculty Position in Neuroscience, Cell Biology, and Physiology
Boonshoft School of Medicine
College of Science and Mathematics
Wright State University

The Department of Neuroscience, Cell Biology, and Physiology (NCBP) at Wright State University invites applicants for a tenure-track faculty position at the Assistant/Associate Professor level. We seek an outstanding scientist with a strong record of academic accomplishments broadly in the cardiovascular and/or neuroscience disciplines. Expertise in cardiopulmonary/neural control/renal research is preferred. Scientists with experience in cellular/molecular inflammation are also encouraged to apply. Applicants must hold a PhD, MD or equivalent degree in the biomedical sciences, and are expected to establish or continue active extramurally funded research programs and participate in teaching medical, graduate, and/or undergraduate students. Associate Professor level candidates must demonstrate active and sustained productivity as an Assistant Professor.

Faculty research programs within NCBP are funded through agencies that include the NIH, NSF, DoD, ONR, AHA and many other national or international funding agencies. Investigators are supported by a state of the art infrastructure including access to core laboratories in imaging, small animal physiology, behavior, genomics, and proteomics. Opportunities are available for interaction with the Wright State Research Institute <https://wsri.wright.edu/> and the Neuroscience Engineering Collaborative, <https://medicine.wright.edu/neuroscience-institute>. Additional information about the department and its faculty is available at <http://www.wright.edu/neuroscience-cell-biology-and-physiology>.

Wright State University offers generous laboratory space, substantial start-up packages and competitive salaries.

Applications must be submitted to <http://jobs.wright.edu/postings/12498>. Review of applications will be ongoing and will continue until the position is filled.

Wright State University is an NSF ADVANCE institution (<http://wright.edu/leader>). Wright State University, an equal opportunity/affirmative action employer, is committed to an inclusive environment and strongly encourages applications from minorities, females, veterans and individuals with disabilities.
