Summary:

The Department of Biomedical Sciences in the newly established University of Houston College of Medicine invites applications for faculty positions in the field of:

- Physiology

This faculty is expected to establish content and lead the design and production of physiology sessions in a highly integrated, cross-disciplinary, inquiry-based curriculum in a new College of Medicine at the University of Houston. Applicants must have a doctoral degree with outstanding credentials in teaching clinically relevant physiology in a U.S. medical school and have demonstrated excellent scholarship, which can be in any research field.

Applicants should submit a curriculum vitae, a statement of teaching interests, and the contact information of three references.

Primary Responsibilities:

- Participating in accreditation activities
- Developing and delivering horizontally and vertically integrated pre-clerkship curriculum
- Teaching clinically relevant physiology sessions
- Facilitating student learning in small-groups sessions (PBL)
- Serving as a mentor to junior faculty, and an academic advisor to medical students
- Supervising student’s scholarly projects
- Participating in the interview and selection process of College of Medicine (COM) students and faculty
- Holding membership on COM and University committees

Full-Time: 1 FTE

Minimum Qualifications

- Doctoral degree, M.D., D.O., or Ph.D. in physiology-related disciplines
- Minimum of 5 years’ experience in teaching physiology in a U.S. medical school
- Evidence of scholarly productivity
- Commitment to innovative approaches to education and learning
- Excellent written and verbal communication skills
- Demonstrated commitment to diversity

Preferred Qualifications:

- Experience in the areas of teaching integrated biomedical sciences, and administrative responsibilities within an academic environment
- Experience using different teaching methods which might include case-based learning, 'flipped classroom', problem-based learning (PBL), interactive large group presentation,
audience response systems, curriculum delivery systems and proficiency in exam item writing

- Experience with student mentoring and advising
- Experience with curricular and instructional design

Rank and salary will commensurate with academic achievements and experience.
