

Exercise Physiologist

Assistant/Associate/Full Professor

Division of Kinesiology, Health & Sport Studies

The Division of Kinesiology, Health and Sport Studies is one of four academic divisions located in the College of Education at Wayne State University. The Division is seeking a tenure-track exercise physiologist to conduct research and provide leadership in its Exercise and Sport Science program.

Wayne State University is a Carnegie Tier 1 research university, and one of 34 public urban research universities in the U.S. with a strong commitment to urban education. The College of Education serves over 2,500 undergraduate and graduate students across 30 degree programs, housed within four academic divisions: Teacher Education; Administrative and Organizational Studies; Theoretical and Behavioral Foundations; and, Kinesiology, Health and Sport Studies. Beyond academics, the College has many active scholars with over \$7 million annual in external funding to support their work. Kinesiology, Health and Sport Studies offers Undergraduate, Master's, and Doctoral programs to over 600 Exercise and Sport Science students in newly renovated research and teaching labs.

The University is located in the cultural center of Detroit within a metropolitan area of more than four million people.

The University offers more than 400 undergraduate and graduate academic programs through 12 schools and colleges to approximately 32,000 students.

Required Qualifications

- Ph. D. in exercise physiology or related field
- Evidence of scholarly productivity/potential commensurate with a Carnegie Tier 1 research-intensive university
- Evidence of the capacity to secure external funding

Preferred Qualifications

- Established and successful scholar preferred, but ABD's with anticipated graduation dates and strong research records will be considered
- Willingness to forge collaborative, multi-disciplinary research initiatives
- Post doctoral experience is strongly preferred

Responsibilities

- Publish scholarly work in high-quality, peer-reviewed journals
- Secure external funding
- Teach exercise physiology or related courses

- Willingness to promote translational research from lab to practice
- Mentor graduate students
- Provide service to the University, College, Division, and profession
