Non-tenure track renewable lecturer in Anatomy & Physiology

The Department of Biological Sciences at Northern Kentucky University invites applications for a non-tenure track renewable lecturer position in anatomy and physiology starting fall 2019. We are especially interested in applicants with teaching experience at both the undergraduate and graduate levels. Appointees will teach undergraduate and graduate courses in anatomy and physiology and pathophysiology in face-to-face and online settings. They will also contribute to student advising and mentoring and service to the university and community.

The Department of Biological Sciences has 24 full-time faculty members and approximately 500 undergraduate majors. NKU is a comprehensive regional university of 14,500 students located close to Cincinnati, OH, in an area offering an outstanding quality of life. It is near a variety of natural areas and is a nationally recognized metropolitan university committed to active engagement with the Northern Kentucky/Greater Cincinnati region of nearly two million people. For additional information about NKU and the Department of Biological Sciences please visit https://www.nku.edu/, https://inside.nku.edu/artsci/departments/biology.html.

Primary Responsibilities

Candidates should be strongly committed to teaching at the undergraduate and graduate levels and should incorporate innovative, inquiry-based, dynamic, active-learning methods into courses. Primary teaching responsibilities will include undergraduate courses in anatomy and physiology and graduate courses in pathophysiology. Additional teaching assignments will depend on the candidate's expertise and departmental needs, and may include introductory biology. Faculty members are also expected to engage in service activities at all levels of the university and to the community, and to provide academic and professional advising to students. Candidates should demonstrate commitment and/or experience promoting and fostering a learning environment that is supportive of individuals from diverse backgrounds. Qualified candidates are encouraged to apply and to identify their strengths and experience in these areas.

Qualifications

A Ph.D., M.D. or equivalent degree in anatomy and physiology or other closely aligned field of study; teaching experience in anatomy and physiology; a commitment to diversity and inclusion.

To Apply: Submit the following to https://jobs.nku.edu: 1) a cover letter specifically addressing experience and qualifications, 2) a statement of teaching philosophy, including a discussion on use of evidence-based instructional practices in the classroom in past or future classes, 3) a diversity and inclusion statement, including your personal philosophy on diversity and inclusion and why they are important in higher education and a description of commitment and/or experience working effectively with diverse populations, 4) a current curriculum vitae, 5) undergraduate and graduate transcripts, and 6) contact information for three references.

Review of applications will begin on October 1, 2018. For questions contact Joseph Mester, mesterj1@nku.edu

Any candidate who is offered this position will be required to go through a pre-employment criminal background check as mandated by state law.

Minimum Education Ph.D., M.D. or equivalent.
