Pos-doctoral Fellowship position

Institution: Ribeirao Preto Medical School – University of Sao Paulo

Department of Physiology

Ribeirao Preto – SP - Brazil

Two Post-Doctoral fellowships are available at Laboratory of Neuroendocrinology, Department of Physiology, Ribeirao Preto Medical School, University of Sao Paulo, Ribeirao Preto, SP, Brazil. The research carried out by Professor Jose Antunes-Rodrigues and Associate Professor Lucila L K Elias is focused on control of hydroelectrolitic and energy homeostasis, including intracellular mechanisms, neural circuitries and body function.

Requirements for the candidate:

The candidate should have a PhD degree in Biological Science. Candidates with experience in basic methodologies applied in physiology, neuroendocrine, cardiovascular, and renal and neuroscience investigation are preferred. Also, candidates with experience in molecular biology techniques, immunoassays, immunofluorescence, immunohistochemistry, Western blotting, RT-PCR and cell culture are preferred.

Good writing and oral communication in English language are required. Motivated, creative, collaborative candidates with a record of publications are desirable.

Application:

Deadline: April 30th 2018

Applicants should send by email to Professor Jose Antunes-Rodrigues (jantunesr@gmail.com):

- Short letter of interest
- Curriculum vitae
- Two reference letters
