

Tentative Schedule of Keynote Lectures and Symposia

Opening Keynote Lecture:

Aquaporins and Human Disease

Speaker: Peter Agre

Renal Actions of NH Hormones: Molecular/Physiological

Chair: Robert Schrier and Sei Sasaki

Pressure/Volume Regulation of VP/OT Release

Chair: Tom Cunningham and Leo Renaud

Central Control of Lactation

Chair: Bill Armstrong and Glenn Hatton

Osmotic Regulation of VP/OT Release

Chair: Mike McKinley

Renal Actions of NH Hormones: Pathophysiology

Chair: Jeff Sands and Peter Gross

Coexpressed Factors in VP and OT Neurons

Chair: Francoise Moos and W.K. Samson

Peripheral Actions of OT

Chair: Hans Zingg

Central Release and Actions of NH Hormones

Chair: Quentin Pittman and Larry Young

Special Lecture

Subcellular Localization of Steroid Receptors: Role in NH Hormone Release

Speaker: Mitsuhiro Kawata

NH Hormone Receptors

Chair: Bernard Mouillac

Clinical Utility of NH Receptor Analogs

Chair: Joseph Verbalis and Maurice Manning

Closing Keynote Lecture:

Oxytocin, Vasopressin, and the Social Cognition: Implications for Autism

Speaker: Larry Young

Organizing Committee:

Celia Sladek (Chair)

William E. Armstrong

J. Thomas Cunningham

Robert W. Schrier

Joseph G. Verbalis
