

Thank you for your interest in establishing a toll-free link to your article, available on our APS online site, from a URL of your choice. The toll-free link will allow visitors to your site to download a copy of your article free of charge while the APS site requires a subscription or a pay-per-view charge for downloading the article. The charge to authors is \$150.00 for an unlimited time.

To facilitate the link, we will need from you the exact URL of the web page where you want to establish the link. You will need to be specific as you will not be able to move the link to different places on your Web page. We will need the full web page address, a "specific" URL for the page, not just the website domain.

EXAMPLE:

<http://www.the-aps.org> is a website domain

<http://www.the-aps.org/publications/journals/jappl/index.html> is a specific URL.

You will be billed \$150.00 for the link on your publication fees invoice that you receive from the printer. If you have additional questions, please contact APS at 301-634-7964.
