Institution	For subscription information visit the-aps.org/publications/subs	
Individual	Online Only	\$445
Member	Online Only	FREE

ORDER INFORMATION

Order form and more information can be found at www.physiology.org

Frequency:

Published online as articles are ready and archived as monthly issues. Printed monthly in the consolidated version of AJP.

Two volumes per year.
eISSN: 1522-1563

Submit your manuscript today! <http://ajpgi.msubmit.net>

*What submitting authors are saying about APS's review process...
My colleagues and I thank you for reviewing our revised manuscript and your very kind comments. We already saw it published on line in PubMed and are very impressed by an incredible rapidity of acceptance to publication time.
You have the best reviewers—very constructive feedback I could use!*

APSselect

Monthly collection of the "best of the best" original research articles from the APS journals
apsselect.physiology.org

Additional Submission Benefits Include:

- ✓ No page or figure limits
- ✓ Publication by the prestigious American Physiological Society
- ✓ Website offers a simplified, clean look, allowing for easy navigation
- ✓ World-class editorial oversight with easy online submission and rapid review
- ✓ Delivery to PubMed Central of NIH-funded articles by APS on behalf of authors
- ✓ Increased visibility via Editorial Focus articles that highlight published articles
- ✓ All articles made freely available 12 months post-publication
- ✓ Broad readership via global access, personalized alerts, cross referencing, and search engine optimization

American Journal of Physiology-Gastrointestinal and Liver Physiology

AJPGI

A journal of the
American
Physiological
Society

Editorship

Editor-in-Chief: Nigel Bunnett, PhD

Nigel Bunnett is a professor of Pharmacology and Medicine at Monash University and is recognized for his work on the contributions of G protein-coupled receptors and transient receptor potential ion channels to gastrointestinal pathophysiology.

Editor's Email: nbunnett.ajp@gmail.com

Deputy Editor

Denise Ney, University of Wisconsin-Madison

Associate Editors

Michael Camilleri, Mayo Clinic College of Medicine

Eugene Chang, University of Chicago

Andrew Giraud, Murdoch Children's Research Institute, Melbourne, Australia

Stephen Pandol, Cedars-Sinai Medical Center, Los Angeles

Charalabos (Harry) Pothoulakis, Division of Digestive Diseases, UCLA

Detlef Schuppan, Mainz University Medical Center, Mainz, Germany

Natalie Török, Gastroenterology and Hepatology, UC Davis

Nathalie Vergnolle, Centre de Pathophysiologie de Toulouse Purpan, Toulouse, France

Scope of the Journal

The American Journal of Physiology–Gastrointestinal and Liver Physiology publishes original articles pertaining to all aspects of research involving normal or abnormal function of the gastrointestinal tract, hepatobiliary system, and pancreas. Authors are encouraged to submit manuscripts dealing with growth and development, digestion, secretion, absorption, metabolism, and motility relative to these organs, as well as research reports dealing with immune and inflammatory processes and with neural, endocrine, and circulatory control mechanisms that affect these organs. Reports of research utilizing molecular biological, cell biological, immunological, biochemical, and morphological approaches that contribute to knowledge of normal physiology or pathophysiology of these organs are especially welcomed. Research ranging from molecular and cellular events to whole animal studies and translational studies in human samples is appropriate.

Important Information for READERS, AUTHORS, and LIBRARIANS

- **AuthorChoice:** Authors can choose to pay a fee to have their articles publicly available upon publication. Cost of Publication: the-aps.org/PublicationCost
AuthorChoice: the-aps.org/AuthorChoice
- **CiteTrack:** Email alerts are sent when new content matches criteria based on the topics, authors, and articles you want to track.
- **CrossRef:** APS participates in CrossRef initiative, which links to over 5,600 journals worldwide.
- **eTOCs:** Free email notification is sent of new tables of contents as they become available.
- **Google search engine:** All online content is searchable through the Google search engine.
- **Index Medicus, BIOSIS Previews, and TRSI Web of Science index** APS journals. APS journal content is indexed on MEDLINE and is accessible through PubMed.
- **Legacy Content** is an online package of over 100 years of historical scientific research from 13 APS research journals.
- **LOCKSS and CLOCKSS:** Perpetual electronic archiving in LOCKSS and CLOCKSS preserves the content of all APS journals.
- **Manuscripts** are published online within days of acceptance.
- **RSS Feeds:** is a mechanism to subscribe to "headlines" from a website.

Calls for Papers

Submission Deadline: December 1, 2017:

- Mechanisms of Host and Microbiome Interactions
- Appetite, Satiation, and Obesity
- Gastrointestinal Motor, Secretory, and Sensory Functions
- Gastrointestinal Aging
- Enteric Nervous System Interactions
- Gastrointestinal and Liver Development and Organogenesis
- Immune Mechanisms of Gastrointestinal Cancer

Submission Deadline: Ongoing:

- Gut-Brain Interactions and Brain Imaging
- Metabolomics and Physiological Systems
- Physiology of Gastrointestinal, Hepatic, and Pancreatic Cancer
- Systems Biology in Gastrointestinal Physiology and Diseases

For more information on these Calls, visit <http://bit.ly/AJPGICalls>. All manuscripts should be submitted online via eJournal Press at ajpgi.msubmit.net.

Article Types

MINI-REVIEWS: Concise, punchy and up-to-the-minute summaries of important new and emerging fields. The purpose is to introduce readers to advances and trends in physiology that are outside their own area of expertise.

RAPID REPORTS: Short papers presenting important new findings that could potentially have a major impact on the field. The manuscript does not need to tell a complete story, but must be compelling, innovative, and novel.

EDITORIAL FOCUS ARTICLES: Commentaries on papers of unusual interest published in the journal that were chosen by the Editor to be highlighted by a brief Editorial Focus commentary.

EDITORIALS: Provide commentary by the Editor, Associate Editors, and other scientists and experts on issues related to the Journal's mission as well as of general interest to our readers. Acceptance will reside with the Editors.

INNOVATIVE METHODOLOGY: Manuscripts submitted under this category should describe new methods for the recording, collection, and/or analysis of data relevant to understanding how the physiological system works.

LETTERS TO THE EDITOR: Should be short (~500 words) and may

respond to previously published articles or address matters of general interest to the readership. Should not include original, unpublished data. Authors of the original article will be provided an opportunity for rebuttal.

PERSPECTIVES: Short articles that disseminate new and original lines of thinking in physiology.

RESEARCH ARTICLES: Important new research results including the entire contents of a research project. Research articles include an abstract, an introduction, methods and results sections, a discussion, and relevant citations. Large data sets are welcome for inclusion in the online publication. Articles are peer-reviewed.

REVIEW ARTICLES: Synthesis of state-of-the-art knowledge in a defined area highlighting new questions and pointing to future research directions. Examination of biological processes, systems and models, and technologies for their study. Typically, reviews are invited and all are peer-reviewed.

YOUNG INVESTIGATOR PERSPECTIVES: Articles that provide perspectives on training, career development, work-life balance, networking, hot new technologies, or scientific topics relevant to the field.

Featured Articles and Collections

Editor's Selected Articles

View these featured articles for FREE at ajpgi.org. Editor's selected articles (which periodically change) are free for a limited time so be sure to check out the website regularly.

Article Collections

APS has developed a variety of collections for the convenience of the readers. Many collections are the result of special selections by the Editor or by a select committee, and as such offer a highly focused view of a particular discipline or specialty. To view the Collections for *Gastrointestinal and Liver Physiology*, please visit ajpgi.org/collection.
