What submitting authors are saying about APS's review process...

"AJP-Heart is my journal of choice for submission."

—Julian Stewart, MD, PhD

"It's a great journal and congratulations on your excellent stewardship."

—Kenneth Spitzer, PhD

APSselect

Monthly collection of the "best of the best" original research articles from the APS journals
apsselect.physiology.org

Why submit to AJP-Heart and Circ?

- ✓ No page limits and no figure limits
- ✓ World-class editorial team
- ✓ Easy online submission
- ✓ Rapid peer review and clear, instructive decision letters
- ✓ Publication by the prestigious American Physiological Society
- ✓ Open access to all articles 12 months post-publication
- ✓ Article delivery to PubMed Central by the APS
- ✓ New journal redesign gives faster access to personalized email alerts and citation tools
- ✓ Editorial podcasts on featured articles

Editorship

Editor-in-Chief: Irving Zucker, PhD

Irving H. Zucker is the Theodore F. Hubbard Professor of Cardiovascular Research and Chairman of the Department of Cellular and Integrative Physiology at the University of Nebraska Medical Center (UNMC) in Omaha, Nebraska. Dr. Zucker is also a professor in the Department of Internal Medicine in the Division of Cardiology.

Fabio Recchia, Temple University and Scuola Superiore S. Anna, Pisa

Junichi Sadoshima, University of Medicine and Dentistry of New Jersey

Ajay Shah, King's College London School of Medicine

Zoltan Ungvari, University of Oklahoma Health Science Center

Scope of the Journal

The American Journal of Physiology–Heart and Circulatory Physiology publishes original investigations on the physiology of the heart, blood vessels, and lymphatics, including experimental and theoretical studies of cardiovascular function at all levels of organization ranging from the intact animal to the cellular, subcellular, and molecular levels. It embraces new descriptions of these functions and of their control systems, as well as their bases in biochemistry, biophysics, genetics, and cell biology. Preference is given to research that provides significant new insights into the mechanisms that determine the performance of the normal and abnormal heart and circulation.

Important Information for READERS, AUTHORS, and LIBRARIANS

- **AuthorChoice:** Authors can choose to pay a fee to have their articles publicly available upon publication. Cost of Publication: the-aps.org/PublicationCost
AuthorChoice: the-aps.org/AuthorChoice
- CiteTrack: Email alerts are sent when new content matches criteria based on the topics, authors, and articles you want to track.
- CrossRef: APS participates in CrossRef initiative, which links to over 5,600 journals worldwide.
- eTOCs: Free email notification is sent of new tables of contents as they become available.
- Google search engine: All online content is searchable through the Google search engine.
- Index Medicus, BIOSIS Previews, and TRSI Web of Science index APS journals. APS journal content is indexed on MEDLINE and is accessible through PubMed.
- Legacy Content is an online package of over 100 years of historical scientific research from 13 APS research journals.
- LOCKSS and CLOCKSS: Perpetual electronic archiving in LOCKSS and CLOCKSS preserves the content of all APS journals.
- Manuscripts are published online within days of acceptance.
- RSS Feeds: is a mechanism to subscribe to “headlines” from a website.

Special Calls for Papers

miRNA Regulation of the Mitochondrion in Cardiovascular Disease

Submission Deadline: August 31, 2017

Advances in Cardiovascular Geroscience

Submission Deadline: September 30, 2017

Extracellular Matrix in Cardiovascular Pathophysiology

Submission Deadline: February, 1 2018

Cardiac Regeneration and Repair

Submission Deadline: February 1, 2018

Novel Mechanisms of Myocardial Ischemia, Ischemia-Reperfusion, and Protection by Myocardial Conditioning

Submission Deadline: February 1, 2018

For more information, please visit <http://bitly.com/AJP-HeartCalls>. All manuscripts should be submitted online via eJournal Press at ajpheart.msubmit.net.

Features

AUTHOR INTERVIEW PODCASTS: *AJP-Heart and Circulatory Physiology* produces author interviews to offer key insights into the latest cardiovascular research published in the journal. Each podcast features a roundtable discussion with the lead author, a global expert in the field, and a member of our international editorial team. Subscribe today to be alerted to new content via your preferred digital media player at ajpheart.podbean.com.

Article Types

RAPID REPORTS: Short papers presenting important new findings that could potentially have a major impact on the field.

RESEARCH ARTICLES: Important new research results including the entire contents of a research project. Research articles include an abstract, an introduction, methods and results sections, a discussion, and relevant citations. Large data sets are welcome for inclusion in the online publication. Articles are peer reviewed.

PERSPECTIVES: Short articles that disseminate new and original lines of thinking in physiology.

INNOVATIVE METHODOLOGY: Manuscripts submitted under this category should describe new methods for the recording, collection, and/or analysis of data relevant to understanding how the physiological system works.

REVIEW ARTICLES: Synthesis of state-of-the-art knowledge in a defined area highlighting new questions and pointing to future research directions. They encompass examination of biological processes, systems, models, and technologies for their study.

LETTERS TO THE EDITOR: Short letters reviewed by the appropriate Editor and subject to editing and possible abridgment. They do not include original, unpublished data. They also address matters of general interest to the readership.

EDITORIALS: Provide commentary by the Editor, Associate Editors, and other scientists and experts on issues related to the journal's mission as well as of general interest to our readers.

Featured Articles and Collections

Editor's Selected Articles

View these featured articles for FREE at ajpheart.org. Editor's selected articles are free for a limited time (and replaced) so be sure to check out the website regularly.

Article Collections

APS has developed a variety of collections for the convenience of the readers. Many collections are the result of special selections by the Editor or by a select committee, and as such offer a highly focused view of a particular discipline or specialty. To view the Collections for AJP-Cell Physiology, please visit ajpcell.org/collection.
