This issue highlights the forthcoming 35th IUPS Congress, March 31-April 5, 2005. **November 3, 2004, is the deadline for submitting abstracts.** Much thought has gone into the planning of Teaching Section events and selection of speakers. Plans are still tentative and subject to change. For the latest information about the Congress and Satellite Programs go to the IUPS web site at: www.iups2005.org

**AWARD OPPORTUNITIES:** The Teaching of Physiology Section Research Recognition Awards ($500) will provide two travel awards for outstanding posters presented in the Teaching Poster Sessions at IUPS/Experimental Biology 2005. Deadline for receipt of the application is Nov. 18, 2003. The Teaching of Physiology Section New Investigator Award ($1,000) recognizes outstanding investigators in the early stages of their career. Deadline for receipt of the application is January 30, 2004. For specific information go to the Teaching Section web site at: www.the-aps.org/sections/teach/index.htm

---

**LOOKING BACK AT EB2004**

Robert G. Carroll, East Carolina University School of Medicine, was awarded the 2004 Arthur C. Guyton Teacher of the Year Award. Interestingly, Carroll completed his postdoctoral training under the sponsorship of Guyton, for whom the award is named. The Guyton Award is given to an APS member who is a full-time faculty member of an accredited college or university and involved in classroom teaching and not exclusively the teaching of graduate students in a research laboratory. The recipient receives $1,000 and expenses to attend the Experimental Biology meeting.

Mark K. Todd, University of Southern California, was the recipient of the 2004 APS Teaching Section Proctor & Gamble Professional Opportunity Award. He received $500, a certificate of recognition, and complimentary registration for the Experimental Biology meeting.

Jacqueline B. Rojas, Curtin University doctoral candidate, was the recipient of the Teaching Section 2004 Young Investigator Travel Award.

---

**LOOKING AHEAD AT IUPS/EB2005**

Fri. 1 Apr. Refresher Course Integrating genomics into physiology courses: a new paradigm or just more information? D. Lemons & A. Kwitek
Sat. 2 Apr. Featured Topic The role of student practical laboratories in physiology education D. Silverthorn & M. de Rocha.
Symposium Effective uses of information technologies in physiology education S. Carlile.
Claude Bernard Distinguished Lecture Charting a global future for education in Physiology A. Sefton
Mon. 4 Apr. Featured Topic The many faces of PBL: a framework for integrative physiology education P. Hansen.
Tues. 5 Apr. Symposium Research in physiology education from the classroom to the teaching community H. Modell.
Pali Mountain IUPS Satellite Teaching Workshop Plenary Sessions and Tracks Labs or no labs in teaching physiology: A debate Information Technology and PBL Integrative versus disciplinary curricula Updating the laboratory sourcebook Issues in classroom teaching of physiology Information Technology in physiology teaching Curriculum planning and design Details at www.usd.edu/physiology

All events are still tentative and subject to change.
The Teaching Section of the American Physiological Society invites you to nominate a fellow physiology educator for the Thirteenth Annual Arthur C. Guyton Physiology Educator of the Year Award.

Nominees must be full-time faculty members of accredited colleges or universities and members of the American Physiological Society. The Selection Committee will look for independent evidence of: (1) excellence in classroom teaching over a number of years at undergraduate, graduate, or professional levels; (2) commitment to the improvement of physiology teaching within the candidate's own institution; and (3) contributions to physiology education at the local community, national or international levels.

In the past, all nominees have shown excellence in teaching at their home institution and many have made significant local contributions through advising, graduate education, or curriculum design and reform. Consequently, the activities that distinguish a candidate in the rankings include outreach activities at the state, national, or international level; contributions to education through APS activities; peer-reviewed educational journal articles; and widely disseminated publications such as commercially produced textbooks, lab manuals, or software.

Each nominee must be nominated by a member of APS. The nominator should send a preliminary letter outlining the qualifications of the nominee to the Chairman of the Award Selection Committee, postmarked no later than Friday November 12th, 2004. In addition, the nominator will subsequently be asked to submit a portfolio on behalf of the nominee that includes letters of support from colleagues and students, summaries of student evaluations, teaching honors and awards, and evidence of education-related activities outside the classroom.

The person selected will receive the award during the APS business meeting at the April 2005 annual meeting of the American Physiological Society (IUPS / Experimental Biology 2005, March 31 - April 6 in San Diego). The Arthur C. Guyton Physiology Educator of the Year will receive a framed, inscribed certificate, an honorarium of $1,000 and expenses of up to $600 to attend the meeting. The awardee is requested to write an essay on his/her philosophy of education for publication in The Physiologist.

The Chairman of the Guyton Award Selection Committee is Jonathan Kibble, Department of Physiology & Neuroscience, St George's University. Following temporary displacement of Dr Kibble by hurricane Ivan, nomination letters may be posted c/o Dr Kibble, APS Central, 9650 Rockville Pike, Bethesda, MD 20814-3991, or emailed to jkibble@sgu.edu
