CBE STYLE MANUAL 4th edition

This publication of the Council of Biology Editors is a guide for authors, editors, and publishers in the biological sciences. Substantially revised, this new edition contains valuable information on article planning and preparation, editorial review of the manuscript, proof-reading, and indexing. It features an annotated bibliography and a greatly expanded index.

265 pages \$12.00
Postage and handling included.

A 10% discount is available for orders of 10 or more copies delivered to one address. Make checks/money orders payable to "AIBS."

All orders must be prepaid.
