

**SUNDAY,
SEPTEMBER 29**

2:00-6:00
REGISTRATION

2:00-4:00
PANEL DISCUSSION
Issues on animal experimentation

6:00-7:30
OPENING RECEPTION

**INTERACTIONS OF THE ENDOCRINE
AND CARDIOVASCULAR SYSTEMS IN
HEALTH AND DISEASE
SEPT 29-OCT 3, SAN ANTONIO, TEXAS**

MONDAY, SEPTEMBER 30		TUESDAY, OCTOBER 1	
AM	PM	AM	PM
8:30-11:30 GRAVITATIONAL SYMPOSIUM Gravitational cell physiology	12:00 Noon-1:00 MEET THE PROFESSOR	8:30-11:30 GRAVITATIONAL SYMPOSIUM Current concepts of gravitational physiology.	12:00 Noon-1:00 MEET THE PROFESSOR
8:30-11:30 SYMPOSIUM Hormone transport in blood: emerging concepts.	1:30-2:30 LECTURE Thyroid hormone and cardiac function.	8:30-11:30 SYMPOSIUM Neurotransmitter release in brain nuclei controlling CV and pituitary function.	1:00-3:00 POSTERS
8:30-11:30 SYMPOSIUM Mechanisms of endocrine hypertension.	2:30-4:30 POSTERS	8:30-11:30 SYMPOSIUM Vascular specialization in endocrine organs.	2:30-5:30 SYMPOSIUM Neuropeptides in blood flow regulation.
			2:30-5:30 SYMPOSIUM Regulation of angiogenesis.
			7:00-9:00 TUTORIAL Second messenger systems in vascular smooth muscle.
			7:00-9:00 TUTORIAL Methods of hormone measurement.

WEDNESDAY, OCTOBER 2		THURSDAY, OCTOBER 3	
AM	PM	AM	PM
8:30-11:30 GRAVITATIONAL SYMPOSIUM Physiology of high G loadings.	12:00 Noon-1:00 MEET THE PROFESSOR	8:30-11:30 GRAVITATIONAL SYMPOSIUM Mathematical modelling for gravitational physiology.	12:00 Noon-1:00 MEET THE PROFESSOR
8:30-11:30 SYMPOSIUM Atrial natriuretic factor and cardiovascular regulation.	1:30-2:30 LECTURE Cardiovascular and endocrine aspects of aging.	8:30-11:30 SYMPOSIUM Calcitropic hormones and cardiovascular function.	1:00-3:00 POSTERS
8:30-11:30 SYMPOSIUM Identification and treatment of cardiovascular disease in diabetes.	2:30-4:30 POSTERS	8:30-11:30 SYMPOSIUM Hormonal signal transduction and regulation of vascular smooth muscle.	2:30-5:30 SYMPOSIUM Neurohumoral mechanisms in bulbospinal control of the circulation.
	7:00-9:00 SOCIETY DINNER AND LECTURE A physiologist's views of the animal rights movement		2:30-5:30 SYMPOSIUM Interrelationship between insulin resistance and hypertension.
