The Central Michigan University College of Medicine (CMED) is seeking highly qualified faculty member in the area of Biochemistry or Pathophysiology. Applicants for this position must be prepared to serve as a content expert in the delivery of biochemistry and/or pathophysiology curriculum to pre-clerkship medical students. This position will also serve as a facilitator for small groups in a problem-based learning environment

Successful candidate will join our Foundation Science Department and participate in the delivery of an innovative and integrated medical school curriculum. CMED faculty work as part of an interdisciplinary team of basic sciences and clinical faculty and collectively assume the role of ongoing development, review and revision of the curriculum. Candidates must therefore be capable of assuming a key educational role, working with other faculty in delivering a cross-disciplinary and inquiry-based medical school curriculum that includes case-based and team-based learning. Assistant, Associate or Professor Rank will be determined based on the candidates’ credentials.

While this is predominantly a teaching position, the college provides opportunity for administrative duties and scholarly research. Our teaching faculty engage in research in their areas of basic science expertise and collaborate in medical education research. The college recognizes scholarly activity including: the advancement of new theories, practices and principles; the expansion and interpretation of existing ideas; the development of educational resources; more traditional forms of research; or the improvement and application of knowledge, especially in new settings. This is a non-tenure track position and start date is negotiable. CMU College of Medicine encourages applicants from historically underrepresented populations, veterans, women, and other minorities to apply

**Required Qualifications:**
- Doctoral degree (PhD, MD/DO)
- Experience in, and strong commitment to, innovative approaches to education and learning
- Ability or commitment to facilitate interactive learning in large and small group settings
- Strong collaborative and communication skills
- Candidates interested in advanced rank must have significant relevant medical school teaching experience of high quality in both large and small group settings as well as evidence of scholarship.
- Demonstrated commitment to diversity.
- Evidence of working in teams is essential.
Preferred Qualifications:

- Experience teaching behavioral or social sciences, pathophysiology, biochemistry or closely related disciplines
- Experience with cross-disciplinary teaching
- Documented experience in patient-, case-, and/or problem-based medical education
- Experience with, or a strong knowledge of, pedagogical approaches such as team-based learning.
- All areas of scholarly activity will be considered, but preference will be given for scholarly activity and experience related to medical education research.

About CMU College of Medicine: The CMU College of Medicine welcomed its inaugural class in the summer of 2013. The innovative medical school curriculum is designed to prepare students for practice in mid- to northern Michigan and the Upper Peninsula, with particular attention to primary care needs in the region. The program is housed in a new facility with advanced technology for teaching. For more information, visit College’s website.

About CMU: Central Michigan University is a major, national university with 26,000 students, more than 30 remote locations in the U.S. and Canada, and 225,000 alumni worldwide. CMU offers more than 200 academic programs at the undergraduate, masters, specialist and doctoral levels. Academic excellence is found in programs considered among the best in the nation, such as engineering, information systems, neuroscience, physician assistant, physical therapy, sales, logistics, fashion merchandising and design, advertising, marketing, public relations, and broadcasting. Central has been a pioneer in extended learning for nearly 50 years, and its online programs for undergraduates and the military, as well as its online MBA and online graduate education for teachers and school leaders, are nationally ranked. Central Michigan University expands its academics with immersive, hands-on opportunities such as research, volunteering, study abroad, internships and leadership experiences. The fourth-largest university in Michigan began with the mission of addressing a demand for teachers prepared and qualified to lead classrooms and educate future generations. That commitment to fulfilling unmet needs continues today through many newer programs, including our College of Medicine, which in May 2017 graduated its first class of doctors dedicated to serving medically underserved communities. Employees have access to fitness facilities and a nationally recognized wellness program as well as health care and benefits that exceed regional, state and national norms. With student-athletes who are expected to perform equally well in the classroom and on the field, CMU is a member of the NCAA Division I Mid-American Conference. CMU Athletics regularly earns accolades for student excellence in the classroom (almost 30 percent of our students were honored in spring 2017 for GPAs of 3.5 or higher) and on the field, with frequent men’s and women’s championship seasons in sports such as football, basketball, gymnastics, field hockey, soccer, baseball and softball, and wrestling.
Central is located in a quaint, tight-knit community in the heart of central lower Michigan. Our community offers a robust mix of outdoor opportunities, family attractions, and restaurants and brew pubs. Mount Pleasant’s small-town life is complemented by cultural activities on campus, including concerts, plays and guest speakers. Mount Pleasant is an hour or two from most Michigan destination spots, including Detroit, Grand Rapids, Lansing and Ann Arbor, as well as the state’s sunset beaches, golf and ski resorts, and our famous “Up North” communities, state parks and lakes.

**To Apply:** CMU CMED encourages applicants from historically underrepresented populations, veterans, women, and other minority groups to apply. Applications must be submitted on-line at: [https://www.jobs.cmich.edu/postings/31452](https://www.jobs.cmich.edu/postings/31452). Review of applications begins immediately and continues until filled. Electronically attach a letter of application, curriculum vitae, evidence of teaching ability, statement of teaching philosophy, statement of research/scholarly interest, and a list of three professional references, including phone numbers and email addresses. Questions can be directed to Sarah Whitman, Search Committee Coordinator, whitm1si@cmich.edu, 989-774-7213.

**EEO Statement:** CMU, an AA/EO institution, strongly and actively strives to increase diversity and provide equal opportunity within its community. CMU does not discriminate against persons based on age, color, disability, ethnicity, familial status, gender, gender expression, gender identity, genetic information, height, marital status, national origin, political persuasion, pregnancy, childbirth or related medical conditions, race, religion, sex, sex-based stereotypes, sexual orientation, transgender status, veteran status, or weight (see [http://www.cmich.edu/ocrie](http://www.cmich.edu/ocrie)).
