The Liberty University College of Osteopathic Medicine (LUCOM) Integrative Physiology and Pharmacology Department is actively searching for a qualified individual – Physiology Faculty (rank commensurate with experience).

The successful candidate will be responsible for teaching select topics in physiology to first- and second-year osteopathic medical students in Liberty’s state-of-the-art Center for Medical and Health Sciences as a member of systems-based teaching teams. Faculty work collaboratively to incorporate current pedagogical methods, including didactic lectures and active learning techniques, in their teaching of the physiological systems and cellular mechanisms that are foundational to health and disease. Faculty are expected to develop and maintain a health-related research program in their area of expertise that has the potential for involving LUCOM and Liberty University students.

Applicants must have a PhD, MD, or DO degree with expertise in physiology. Minimum qualifications for rank of Assistant Professor are preferably two years of successful teaching experience, presentations at scientific meetings, and publication in current professionals journals. LUCOM will also consider individuals completing postdoctoral work who show potential. Good interpersonal skills are required to work in LUCOM’s team-based culture. Recruited faculty members will be expected to support a positive Christian environment while mentoring Liberty osteopathic medical students.

LUCOM is a faith-based institution with student–doctors guided by the principles of the Christian worldview to become knowledgeable and competent servants for their patients and society. Our mission, as a distinctly Christian medical school, is to glorify God through the provision of quality medical care by developing osteopathic physicians to serve those in need.

For more information and/or to send letters of interest (current CV included), please email LUCOMInfo@liberty.edu with Biomedical in the subject line.
