Position Description for:
Assistant Professor, Physiology

The Department of Foundational Health Sciences in The Chicago Medical School/Rosalind Franklin University of Medicine and Science seeks to hire a full-time faculty member on the educator track in the discipline of Physiology and Biophysics at the rank of Assistant Professor. The successful candidate will work with a team of medical educators to teach physiology in an integrated medical curriculum. A PhD in physiology or a related discipline is required. Candidates are expected to demonstrate excellence in teaching, and provide leadership to the Endocrine-Reproduction section of the medical curriculum after one year. Candidates must have strong organizational and problem-solving skills, excellent oral and written communication skills, and be able to work collaboratively as part of an interdisciplinary team of biomedical scientists and clinicians. Additional duties include developing and implementing interactive educational materials to enhance the quality of medical education in an inter-professional setting, supervising and mentoring students, and serving on university committees.

To view the full job description and apply for the position, please visit https://www.rosalindfranklin.edu/employment/. Application should include a curriculum vitae along with a statement of teaching experience. Review of applications will begin immediately and will continue until the position is filled. Salary is competitive and commensurate with academic credentials and experience.
