Assistant/Associate Professor of Physiology  
Department of Biomedical Sciences

Duties Performed in the Usual Course of the Job:
The successful candidate will:

- Contribute to the development and delivery of physiology curriculum, including foundational and systems-based courses.
- Collaborate with faculty in other departments to integrate physiology throughout the undergraduate medical education curriculum.
- Provide for instruction using various methods of content delivery, including large and small group discussions, case reports, grand rounds, and other interactive approaches.
- Participate in the writing of exam questions based on COMLEX-USA and USMLE styles.
- Maintain scholarly activities, including application for research grants, dissemination of research findings in peer-reviewed journals, and conference attendance.
- Act as a faculty advisor and participate in selection of students.
- Perform other duties as assigned by the chair of the department.

Note: The new medical school will be located in the Grand Central Park community of Conroe, TX – just 5 miles N of The Woodlands, and 35 miles N of Houston. The current location is in Huntsville, but this position will move to Conroe upon completion of the new medical school facility (spring, 2020).

Qualifications:
A PhD, DO, MD or equivalent terminal degree in a related field from an accredited university is required, along with at least 1 – 3 years teaching experience in an academic institution at the graduate or professional level. Teaching experience to medical students preferred. Good interpersonal skills, effective communication skills, and the ability to work cooperatively and congenially within a diverse faculty is required. Leadership skills and vision for enhancing the academic components of a multi-disciplinary department are essential. Candidate should present a plan for scholarly activity, including publications and presentations commensurate with the rank of Assistant or Associate Professor. Experience using different teaching methods, which includes case-based learning, ‘flipped classroom,’ interactive large group presentation, audience response systems, and curriculum delivery systems (Blackboard) is highly preferred; experience with curricular and instructional design is desired.

Special Instructions:
To submit an application, please apply online through the Sam Houston State University employment portal. Use the following link: http://shsu.peopleadmin.com/postings/22246, or copy/paste into your browser; then click "Apply for this Job" to fill out an application and submit your documents. Please do not send documents via email. Review of applications will continue until the position has been filled.
