Assistant Professor of Biology

The University of Houston-Clear Lake seeks applicants for a full-time, tenure-track appointment for an Assistant Professor of Biology, beginning Fall 2020. A Ph.D. in biology or a closely related field is required. Preference will be given to individuals with teaching and post-doctoral research experience in any of the following areas: human physiology, human anatomy, pathophysiology, or other human/animal science related fields.

The candidate will have primary responsibility for teaching courses in support of the Biology program's pre-health specialization at the bachelor and master levels. This position has a normal teaching load of nine credit hours per semester, comprised of undergraduate and graduate courses.

The selected candidate will be expected to develop and maintain an independent and active research program, advise master's level graduate students on theses and projects, supervise undergraduate student research, and provide service to the profession, university, and department.

Applications will be accepted online only at https://www.uhcl.edu/human-resources/. Candidates must provide evidence of their potential to develop into an excellent teacher and a productive, externally funded researcher. To apply, please complete the online faculty application and attach a curriculum vitae, a one-page statement of research interests, a one-page statement of teaching philosophy and the names of three references. Reference providers will be contacted electronically for final candidates only. Review of applications will begin on March 1, 2020 and will continue until the position is filled. The University of Houston-Clear Lake is an Affirmative Action/Equal Opportunity Employer supporting workplace diversity. The university hires only individuals authorized to work in the United States.

The University of Houston-Clear Lake (http://www.uhcl.edu) is a culturally diverse university with an enrollment of 9000. The campus is on 524 acres of natural green space and adjacent to NASA-Johnson Space Center in the Clear Lake recreational area, the campus is 30 minutes from downtown Houston and Galveston Island. It offers degree programs at the bachelor and master’s level.
