Tenure-track Assistant Professor in Physiology

The Department of Biology within the College of Arts and Sciences at the University of North Florida (UNF) invites applications for a state-funded, tenure-track assistant professor position in physiology. UNF is a comprehensive, urban university located in Jacksonville, Florida and is home to 17,000 students and six colleges. The Department of Biology at UNF has two main pillars of research focus, including an established Coastal and Marine Biology program and a newly initiated Biomedical Sciences program. This assistant professor position in physiology will contribute to our expanding University-wide Biomedical Sciences program.

Teaching responsibilities for this position will include introductory level courses, an upper-level course in human physiology, and courses in the area of specialty. Additionally, the successful candidate will demonstrate evidence of scholarship that will develop into a well-funded, internationally recognized research program in biomedical physiology. Opportunities exist to establish collaborations within UNF and with high profile biomedical research institutions in south Jacksonville. Evidence of research and teaching excellence and contributions to University and Departmental service missions are expected.

UNF strategically supports an aim to operate as a preeminent, vibrantly inclusive employer in higher education. The successful candidate should demonstrate a capacity to work among diverse constituencies in the immediate university community and beyond. UNF faculty are expected to maintain the highest standards of academic excellence in all phases of instruction, research/scholarship/creative activity, and service.

Required Qualifications:
- Ph.D. in physiology or a related discipline;
- Commitment to excellence in teaching undergraduate and graduate-level courses;
- Strong commitment to mentoring and supervising undergraduate and graduate research students;
- Excellence in research demonstrated by a strong publication record in peer-reviewed journals;
- Demonstrated potential to establish an independent research program.

Preferred Qualifications:
- Postdoctoral experience;
- Extramural research support.

Candidates must apply online at http://unfjobs.org and submit a complete application packet consisting of a letter of application; a teaching statement; a research statement; a curriculum vitae; names and contact information for at least three professional references; and copies of transcripts. Review of applications will begin on November 1, 2019 and the position will remain open until filled. Inquiries regarding the position should be directed to Dr. Judith Ochrietor, Search Committee Chair (j.ochrietor@unf.edu).

UNF is an Equal Opportunity/Equal Access/Affirmative Action Institution.
