Assistant or Associate Professor in Neurobiology

The Department of Physiology and Neurobiology at the University of Connecticut, Storrs invites applications for a tenure-track position at the Assistant or Associate Professor level. We encourage applications from individuals committed to establishing an independent research program studying fundamentally important questions in any area of neurobiology. Applicants must have a Ph.D. or equivalent; post-doctoral research experience; and a record of peer-reviewed publication in leading journals. Candidates should be committed to teaching and mentoring at the undergraduate and graduate levels, and to promoting diversity through research and teaching programs. The successful candidate will receive a competitive start-up package to build a research program in a research-intensive and collegial environment.

To Apply: Interested applicants must apply electronically https://academicjobsonline.org/ajo/jobs/14564. Select “Apply” for Search #2020138, Assistant or Associate Professor in Neurobiology. Please submit the following: a cover letter; research statement; curriculum vitae; two most significant publications; teaching statement; a commitment to diversity statement; and contact information for at least four professional references. Review of applications will commence November 8th, 2019 and continue until the position is filled.

For questions regarding the application process please contact Linda Armstrong (linda.armstrong@uconn.edu), and for information regarding the position or department contact Joe LoTurco (Joseph.Loturco@uconn.edu), Department Head and Professor, Department of Physiology and Neurobiology. University of Connecticut, Storrs.
